Company Overview

AS Royal Interior is highly regarded for designing spaces to enhance businesses across India with its workmanship, timely delivery and professional approach.

AS Royal Interior is professionally-managed turn key solutions company for corporate and retail interiors along with manufacturing modular furniture.

It has been delivering services nearly 20 years now, providing creative, progressive, aesthetic and practical design solutions that exceeds customer satisfaction with a spotless record of excellent after sales service EVERY time.

“

The quality offered by them (AS Royal Interior) is as per the standards prescribed by our company and has never failed to use products specified by us. The response time to sort the defects if any at site is quite less and they give the best service always. Highly recommend for the project works. Their service is immediate and prompt and reaches the site as committed. They had completed the branches in the well defined TAT and are quite prompt in resolution too on site.

“Creativity is allowing yourself to make mistakes.
Design is knowing which ones to keep.”

– Scott Adams

Our Systems

We have management systems in place for both internal and external staff. By having these systems we can ensure that all employees and services are operating safely and efficiently.

The majority of our work force is sourced in-house. **The personnel that are outsourced undergo an accreditation process to evaluate their suitability to our ethics and key performance indicators.**

Our effective management systems are demonstrated by the commitment and direct involvement of all employees at all levels of the company.

We operate with a 'hands on' approach towards management adopting an effective 'two-way communication' method within every project. Doing this ensures clear communication throughout all levels involved and is an integral part of how we do business.

Training and education is paramount within us. Achieving high standards is ensured by having the right people in the right place. Our employees are supported, given regular training and meetings to help them progress within their roles and beyond.

Quality Assurance Policy

We deliver accurate results every time by adhering to robust quality assurance Policy and Procedures via an Integrated Management System. Our aim is to be a recognised leader in the services we provide by meeting the stated and implied needs of our Clients. We attach great importance to quality management and the services we provide must reflect a high degree of Client satisfaction. We undertake regular audits to provide these services, which in all respects must meet or exceed our Client's expectations for quality, safety, timing and budget. To ensure these aims are met, we have established and maintain a quality system which has been planned, developed and is used by all employees in conjunction with other management functions. The quality system has been implemented and is constantly monitored and upgraded. We have developed measurable objectives which are periodically reviewed to ensure the continuous improvement of our systems. All members of staff are required to be fully conversant with the quality system and the associated procedures and instructions relevant to their work and to be responsible for the quality of all work they produce. This policy is used to clearly communicate our attitude with regard to quality & recognises that this commitment is essential to our long term success with regard to our competitive position, our reputation, our Clients and our people.

Safety Policy

We are committed to Health, Safety and the Environment (HSE), providing a safe and healthy workplace for all of our workers. We recognise our responsibility to provide a safe and healthy working environment for all contractors, clients, visitors and the public ensuring our safety management system is represented on site for each project.

The HSE policy is relevant in everything we do, taking a systematic approach to identifying, assessing and controlling all health and safety risks and hazards.

Management have direct involvement and are committed to the 'commit-plan-do-check-review' method, ensuring policies are developed to ensure all operations conducted by employees and contractors are in accordance with relevant legislation, regulatory requirements and industry standards.

Environmental Policy

We operate our Environmental Management Systems (EMS). We continually evaluate our activities to ensure they are in-line with our EMS Policy and are working to reduce our environmental impact.

The EMS Policy is empowered by all staff and is endorsed by the top level managers ensuring that EMS is maintained and is present in everything we do. All employees and sub-contractors are educated on our EMS policy ensuring that all are aware of the importance of their compliance and the individual's responsibility in conforming to the policy.

Sustainability is our top agenda, we support sustainable, eco-friendly manufacturing practices, and solutions. We make use of sustainable timber to prosper green homes.

Our In-house Manufacturing Unit

By combining time-honoured artistry, skill along with the latest technology we are producing contemporary fenestration and other furniture that stands head & shoulders above the rest.

AS Royal Interiors has been **designing, manufacturing, and fitting luxury furniture for over two decades**. We manufacture original wooden furniture and frontals in our manufacturing unit. We are specialists in the creation of exceptional bespoke furniture, fenestration products, and fittings for the commercial sector.

We are versatile furniture manufacturers and our flexibility is paramount! Since 2001, we have been delivering high volume orders serving a wide range of industries. **We are one-stop-shop for full manufacturing and production services of wooden, uPVC, aluminium products including doors, windows, wardrobe sets, office furniture, cabinets, cupboards, much more.**

Utilizing premium-grade materials, solid laminate, sheet materials, etc. we process all our furniture and fittings. Closely working with architects and designers, we evolve client ideas, visualizations, by offering CAD drawings, renderings, and transparent quotes before manufacturing.

Aimed to be the first choice supplier for all the fenestration, furniture, and interior design concepts, and also want to diversify your current product range. We are professional, reliable, and focused team of experienced specialists in the furniture manufacturing industry. ITP is open to industrial innovations and eager to implement new, ideals, concepts, and solutions along with sharing our knowledge with our partners & prospects.

With around **5400 square feet of factory with 3 floor working area in Noida**, we strive on keeping the efficiency level at its peaks in all processes while improving ourselves with customer-oriented innovations and personal solutions. our skilled and dedicated team enables us to use modern fabrication techniques to manufacture the vast variation of furniture request by our clients.

Huge convergence hall tables, chairs and additional requirements with the ceiling design and lights best for lightening up the whole space. Open space, Sleek Designs, curvacious workstations with all level chairs from waiting room to Signature Level Managerial chairs. Colour scheme that carried throughout.

Retail Spaces 

Shopify Retail Store

Designing retail stores interior is a form of telling the retailers brand story and creating immersive shopping experience to putting together Head-turning window displays and signage essentials. When it comes to retail the devil really is in the details. Simplicity in design is important to ensure the central focus of the store is its offerings. We focus on current trend of creating light structures using simple geometrical forms infused with innovative design forms that impacts the physical branding objective of the brand.
